MELAMINE LAMINATE TRAYS & POYESTER SMC TRAYS

Depending on the item Carlisle can provide printing in 1, 2, 3 or 4 colours.

- You send Carlisle your design.
- Vectorial format (preferably): illustrator, Freehand or vectorial EPS format (can be enlarged or reduced without any loss of quality)
- Tiff of Bmp format: for a 300DPI resolution your design must be 100% the final repododuction size (when enlarged these formats always entail a loss of quality)
- If your logo is submitted in another format Carlisle can process it in a professional manner. (At cost price) Simply tell us where you want your design positioned.
- Creation of a virtual tray mock-up with your logo/decor ('approved for printing') which we will send you for approval.

IMPORTANT:

- Perfect colour reproduction is not always possible for technical reasons certain logos and decors cannot be realised (e.g metallic colours).
- Carlisle and its print shop use the Pantone colour scale. This colour scale is a usefol tool when discussing your printing job.
- Please contact Customer Services if you have any questions or comments. We are happy to help!

Tip: A uniform tray with your white recessed logo is simple and highly effective.
